

Specialized memory care.

At CountryHouse, caring for those with memory loss is our only focus. We're pleased to provide an environment that's specifically geared for those with memory loss.

CountryHouse is designed and built for your loved one to feel comfortable and cared for while maintaining their independence. They have use of every area in the community – it's not unusual to see residents spending time in our Executive Director's office, getting exercise while walking throughout the whole building or enjoying a nap on the couch of their home.

There are major benefits that come from minor considerations - like multipurpose activity areas that can host games, crafts, entertainers, chapel services and more. Or resident kitchens where the smell of baking can spark a memory, an in-house salon where residents can feel pampered without having to leave the premises, or areas to walk and explore while staying safe, including secured outdoor spaces.

Residents also have a room to call their own...or share with a friend! We invite residents to bring their own furniture and mementos to personalize their surroundings. It creates a familiar, comfortable setting that cultivates health and happiness.

Although each one of our communities has its own unique design elements, all our communities feature:

- ▶ A secure environment, with experienced and trained staff on-site 24/7.
- ▶ Daily personal care that's customized to your loved ones preferences and needs.
- ▶ Comfortable common areas and spaces used for special programs, gatherings and socializing.
- ▶ Spacious dining rooms where homemade meals are served.
- ▶ Small family dining rooms for family visitors to enjoy.
- ▶ Hands on kitchens for residents to bake, cook and enjoy other activities.
- ▶ On-site salons for cuts and styles.
- ▶ Life enriching activities and opportunities for outings and bus rides.
- ▶ Free local transportation.
- ▶ Courtyards and outdoor spaces, many which feature walking paths, gardening areas and shady seating.

Short-stays at CountryHouse.

Not only do we serve those who make a long term move to CountryHouse, but all communities have the ability to provide short-term "respite" care. A respite stay is a short-term stay, ranging from a few days to a few weeks to a few months! If you need to work, travel or simply take a break from care, this option may be helpful for you. It's also the perfect way to see if CountryHouse could be a good fit as your loved one's next home.

We provide a comfortable furnished room and short stay guests benefit from expert care, life enriching activities, delicious homemade meals, and most importantly, a safe and secure environment. Respite stays are based on space and availability.

Many CountryHouse communities are also licensed to provide day stay services. A day stay is exactly what it sounds like - a stay for the day. Day stay participants take advantage of all that our community has to offer, while you take time to work or just have a few hours to yourself.

Day stay services are not offered in California.
